Empathy Map Canvas:

The empathy map captures user behaviors and attitudes to help better understand their core shopping needs. It fosters a user-centric perspective focusing on user goals and technical challenges within the ShopEz application environment.

<u>Think & Feel</u> • Is this site secure for orders? • Will the item look like the photo? • I hope the delivery is fast. • Values affordability and quality.	<u>See</u> • High quality product images. • Competitor price comparisons. • Responsive web interface. • Order status tracking notifications.
<u>Hear</u> • Peer reviews about product reliability. • Influencer clothing recommendations. • Security warnings for online stores. • Friends discussing ease of use.	<u>Say & Do</u> • Registers and browses categories. • Searches for specific sizes/colors. • "I need a simple checkout process." • Compares Men, Women, and Kids tabs.
<u>Pain Points</u> • Complicated registration flows. • Slow page loading on mobile. • Unclear order tracking status. • Difficulty finding specific filters.	<u>Gains</u> • Seamless MERN-based performance. • One-click product search results. • Centralized order history view. • Simplified admin inventory updates.
